

Custom Kitchen Countertop Estimate Request

Use this worksheet to complete a preliminary measurement of your kitchen countertops to obtain an estimate of your project. The price of your new kitchen countertop will vary depending on the stone selection, edge profile and other options. Your final cost will be calculated once you visit the showroom and our Countertop Design Expert reviews the scope of work to be done and after our Template Mechanic completes an actual template fitting in your home. When we have compiled the complete list of options, we can give you your final cost. You will need to bring this worksheet with you to the showroom when you come to pick out your natural stone slab(s).

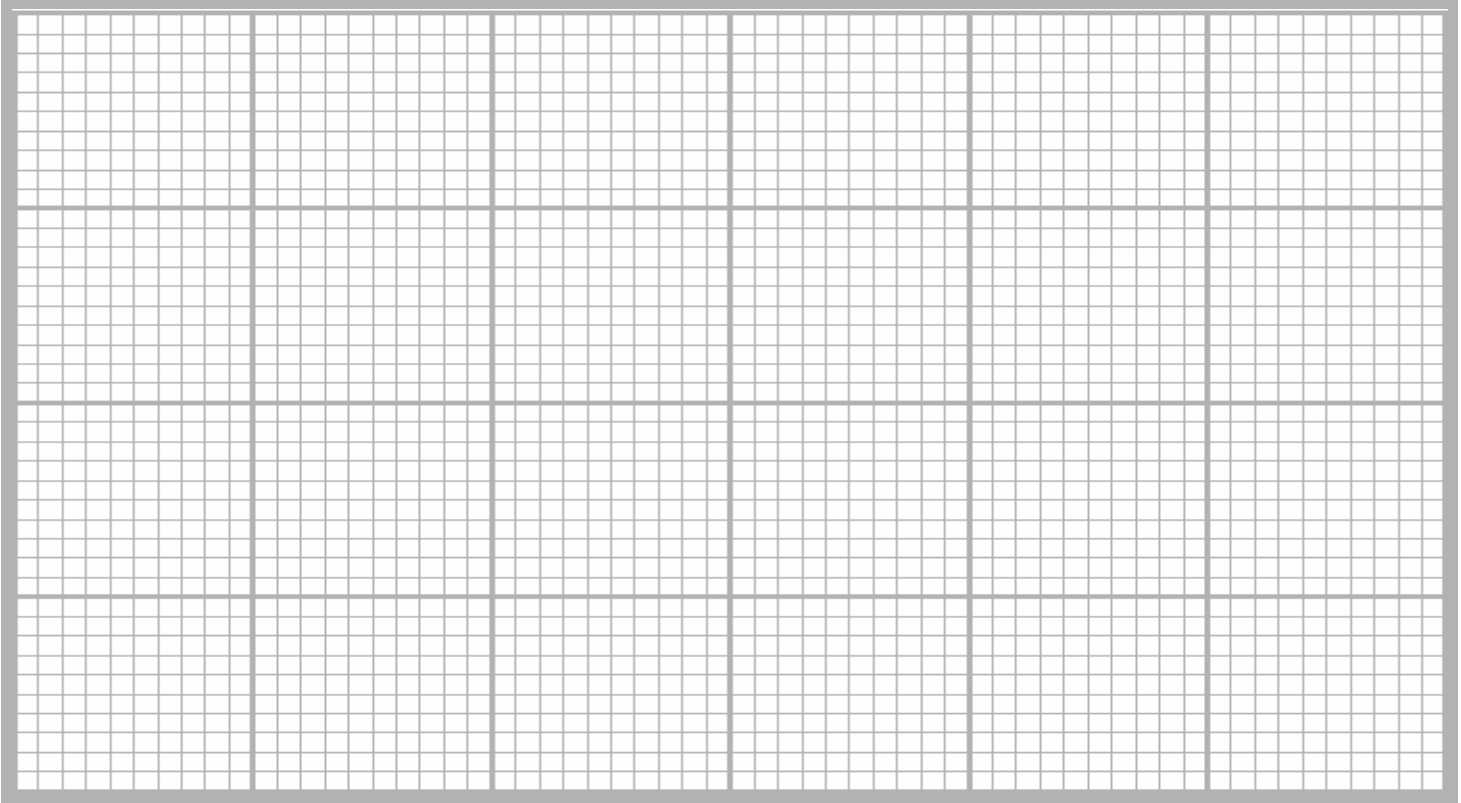

Customer Name: _____ Phone: _____

Jobsite Address: _____

City _____ State: _____ Zip: _____

Email Address: _____ Slab Selection Date: ____/____/____

Countertop Design Expert: _____ Appt. Date: _____

Step 1. Print this page and sketch your countertops in the grid above. (See page 2 for examples of common layouts)

Step 2. Number the sections in your layout, 1, 2, 3 etc.

Step 3. Write down your measurements: Measure each countertop section and write down the results in inches (rounded up).

Step 4. Return to our website and enter your kitchen countertop measurements into our estimator form.

Step 5. The result is the base price of your total cost for your new custom kitchen countertops. This price is based on the following:

- Premium Grade Granite or Marble Stone slab(s) of your choice.
- Custom fabrication from full sized stone slabs to minimize seams, (it is not pieced together from scraps).
- Typical Installation done in a day - (it takes as little as 7 to 10 business days to custom fabricate your countertops from the template/slab layout approval date).
- Installation price does not include removal and disposal of your old countertops.
